Consensus builder who drives success through empathy-driven dialogue and data-driven decisions.

PROFESSIONAL SUMMARY

Tech-savvy project professional with experience leading IT and infrastructure projects in fields like aerospace, energy, and security. Experienced in handling everything from requirements gathering and troubleshooting to data analysis with SQL. I'm all about using tools to keep things on track and deliver results on time, and I'm eager to put my technical know-how and project skills to work, helping teams thrive as an individual contributor and improving IT systems.

Relevant Skills: Project Management (Agile, Waterfall, SDLC) | IT Operations | Risk Management | Stakeholder Communication | Data Analysis & Reporting | Collaboration Tools

WORK EXPERIENCE

Separation Manager

Jan 2024 - Nov 2024

GE Aerospace

- Directed data-centric projects for organizational restructuring, ensuring compliance with tight timelines and regulatory standards during GE's trifurcation.
- Designed and implemented project documentation processes to enhance system quality and maintain compliance.
- Developed performance metrics and tracking tools, improving transparency for senior stakeholders.
- Facilitated cross-functional collaboration across IT, operations, and executive teams, ensuring seamless project alignment.
