Summary

Results-driven PM with over 7 years of experience leading infrastructure, educational, and IT projects across diverse industries, including aerospace, energy, and security systems. Adept at utilizing project management tools (Microsoft Project, Trello, GitHub Projects) to streamline operations and meet deadlines. Committed to leveraging technical expertise and leadership to optimize team performance and drive project success.

Experience

Separation Manager

GE Aerospace

Jan 2024 - Nov 2024 (11 months)

Directed data-centric projects for organizational restructuring, ensuring compliance with tight timelines and regulatory standards during GE's trifurcation.

Designed and implemented project documentation processes to enhance system quality and maintain compliance.

Developed performance metrics and tracking tools, improving transparency for senior stakeholders.

Facilitated cross-functional collaboration across IT, operations, and executive teams, ensuring seamless project alignment.

Technical Project Manager

Shepherd Communication & Security

Jul 2022 - Jun 2023 (1 year)

Managed end-to-end delivery of 500+ technical projects, including CCTV, access control, and perimeter security systems, completing projects 10% faster than deadlines.

Collaborated with customers to define project goals, ensuring alignment with technical specifications and stakeholder priorities.

Utilized project tracking tools (Microsoft Project, Teams) to streamline reporting and optimize resource allocation.

Conducted data analysis to refine operational strategies, improving team efficiency by 15%.

Project Manager (Central East Energy Connect)

Northern Clearing, Inc.

Nov 2020 - Jun 2022 (1 year 8 months)

Led a 40-member team to complete a 100+ mile energy infrastructure project, meeting milestones in alignment with New York's zero-emissions mandate.

Created detailed project documentation, including PoDs, RFIs, and trackers, ensuring compliance with Article VII regulatory standards.

Spearheaded risk management initiatives, mitigating potential disruptions to project timelines and budgets.

Tech Specialist | Assistant Business Manager

Cox Well Services, LLC

May 2020 - Nov 2020 (7 months)

Developed project estimates and schedules, contributing to winning \$800,000 in project bids for a 30-man crew

Modernized the company's digital presence, enhancing client engagement through improved UI/UX design.

Kept certification records up-to-date, ensuring compliance with industry standards

Field Planner (Mountaineer Xpress, Leech Xpress)

Columbia Group/TC Energy % System One

Feb 2017 - Jan 2019 (2 years)

Managed project scheduling for \$24B energy projects using Oracle Primavera P6 and Microsoft Project.

Oversaw vendor deliverables, procurement, and quality assurance, ensuring timely material delivery and compliance.
